SUBJECT: Weekly Report

DATE: 21 April 1952

1. Submitted herewith is a report of items of interest concerning the Intelligence School.

- a. The staff has completed reading and grading the mid-term examinations. With two exceptions the papers were well written, and the trainees show a well-balanced understanding of the entire intelligence community. The two exceptions were:

25X1

[redacted]

25X1

- b. The present plans of the staff are to call in both [redacted] and have a conference with them regarding their papers.

25X1

[redacted] leads us to believe, at this writing, that the entire picture of the intelligence community is rather vague and jumbled in her mind. Her paper was not complete and lacked the coherence of the others.

25X1

[redacted] inadvertently left out a few very important divisions of the intelligence community or did not connect them with the entire picture, e.g., she left out IAC in both charts she was called upon to reproduce and in one she omitted the NSC.

25X1

- c. The remaining papers were broken down into the following grade categories:

- (1) Satisfactory - [redacted]  
 (2) Excellent - [redacted]  
 (3) Superior - [redacted]

25X1

- d. The speakers for the past have been:

- (1) [redacted] OSI - good, but dry  
 (2) [redacted] - ORR - excellent  
 (3) Mr. Zander - G-2 - excellent
